Climatological Association.....	239
The Seventh Pan-American Congress .....	239

ENTERED AT SAN FRANCISCO, CAL. AS SECOND-CLASS MATTER

## Gant's Diarrhea, Inflammatory and Parasitic Diseases

JUST OUT

This new work is particularly full on the two practical phases of the subject—*diagnosis* and *treatment*. For instance: While the essential diagnostic points are given under each disease, a fuller description of diagnostic methods is given in a special chapter. The *differential diagnosis* of diarrheas of local and those of systemic disturbances is strongly brought out. There is a special chapter on *nervous diarrheas* and those originating from *gastrogenic* and *enterogenic dyspepsias*. You get the psychotherapy of psychic diarrheas. You get reliable methods of simultaneously controlling associated constipation and diarrhea. You get a complete *formulary*—prescriptions from Dr. Gant's own practice. There is a chapter on hookworms, tapeworms, and round worms, and on the diarrheas caused by them and other parasites. This chapter contains many *excellent illustrations*. The limitations of drugs are pointed out, the dangers of their use emphasized, and the indications for surgical intervention given. You get the *technic in detail* of all surgical procedures—fully illustrated.

Octavo of 604 pages, with 181 illustrations. By SAMUEL G. GANT, M.D., LL.D., Professor of Diseases of the Sigmoid Flexure, Colon, Rectum and Anus, New York Post-Graduate Medical School and Hospital.

SAUNDERS' EXHIBIT will occupy Booths 25, 26, 27, at the A. M. A. meeting. Stop there!
